Size Chart

A well-fitted leotard/tutu will look more flattering than anything! *Here's how to measure...*

Bust

Measure the bust line at the fullest part of your chest. While you are being measured, your arms should be at your side and relaxed.

Waist

Wrap the measuring tape around your torso, at the smallest part of your waist.

Hips

Measure the hips line at the fullest part of your bottom.

Girth

Place tape measure on center of right shoulder, run through crotch and back to right shoulder loosely. The girth is the most important measurement. When in doubt, let the girth measurement determine size!
