

# Corporate Sponsorship

Ballet Virginia, a 501c3 nonprofit organization, is pleased to offer several levels of corporate sponsorship. Since 2008, your support has ensured that Ballet Virginia can provide the Hampton Roads community with performances of time-honored classics, innovative new works as well as community outreach. Performances throughout the season include "The Nutcracker" with live orchestra, original contemporary works and a full-length classical ballet in the spring featuring our professional ballet company.

Ballet Virginia, with your help, is committed to instilling a life-long love of dance and enriching the cultural fabric of our community while striving for diversity, equity and inclusion.
